To Whom It May Concern,

Megan Sedlacek was referred to me by a friend at church. We had just moved to Spokane with our 2 year-old son, Alexander, and were looking for someone to watch him periodically. My friend highly recommended Megan.

I was very impressed with the professional approach that Megan takes with her job. She brought her portfolio for us to review and she came over to meet with us before we needed her services. She wanted to meet Alexander and to get to know our routine. I was also impressed with how well she remembered our routine when she came back, even the smallest details!

Alexander had stranger anxiety, but by the second time Megan watched him, he didn't even cry when we left. Now he gets so excited when we tell him Megan is coming over and during his evening prayers he says he is thankful for Megan. He lists all of the fun things that he will be doing with Megan, and I know that her focus on him really helps him while we are gone. Alexander is highly energetic, and Megan deals with his enthusiasm perfectly.

I would recommend Megan to any of my closest friends and family.

Sincerely,

*Victoria Van Inwegen*
